

Bavarian International School, e.V.

MUNICH, GERMANY

Located north of Munich in a beautiful and historic *schloss*, Bavarian International School offers the International Baccalaureate continuum to over 1,000 students of 45 different nationalities.

The school began using ManageBac in 2008 for the Diploma core, but has consistently expanded its use over the years. The school now uses ManageBac for the Diploma, Middle Years, and Primary Years programmes, as well as Reporting and Attendance.

Why ManageBac?

Bavarian International School first used ManageBac to track student activities and reflections for CAS. Shortly after, they used ManageBac for bulk registering student exam information on IBIS.

Over time, usage of the system grew so that Bavarian International now uses ManageBac as a complete learning platform. Curriculum planning, assessment and reporting are now done entirely on ManageBac.

Implementing ManageBac

Since Bavarian International School started using ManageBac, the support team has provided dedicated personal online training sessions booked at convenient times, as well as e-mail and phone support. "It's awesome," said Adrian. "Fast e-mail response times and Skype calls when needed."

The most challenging part of the system to implement was reporting, but after receiving a sample of what the school needed, the ManageBac support team assisted with creating custom rubrics and report templates, so that all reporting requirements were met.

“

Our students love ManageBac.

They were the driving force to move away from our previous learning platform.

The teachers at Bavarian International School use ManageBac for nearly every aspect of class management. They plan units, communicate with students, set assignments, grade work, and write reports.
